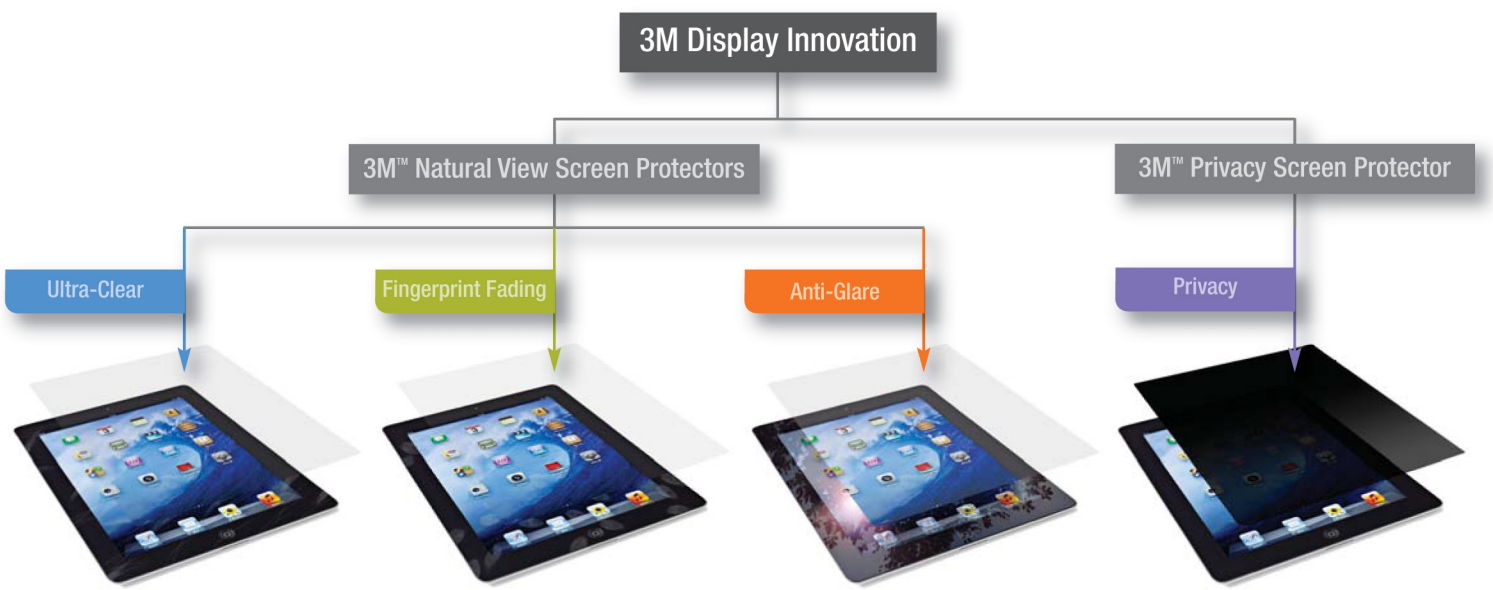
3M™ Screen Protection for Apple® Mobile Devices

Ultra-Clear / Fingerprint Fading / Anti-Glare / Privacy Screen Protectors



- **Invisible protection**
  Ultra-clear, invisible self adhesive film protects display without detracting from the viewing experience
- **Tough, long-lasting**
  Warranted protection against scratches and scuffs for lifetime of device
- **Vibrant display**
  Glossy finish for crystal-clear image

- **Unique patented technology**
  Fades normal fingerprints over time
- **Less cleaning**
  Fading fingerprints means less frequent screen cleaning
- **Great looking, improved viewing**
  Glossy surface helps maintain crystal-clear image for your device

- **Reduces screen glare and reflection**
  Superb reduction of mirror-like reflections for improved viewing in bright light
- **Extends tablet usability**
  Makes viewing and sharing information easier for outdoor workers, business travellers, holiday makers
- **Vibrant image**
  High quality matt surface with minimum impact on display quality

- **Effective privacy**
  Unique microlouvre technology offers a full 60° privacy from either side
- **Improved visual security**
  Keeps confidential and personal data safe from prying eyes
- **Great to use**
  Gloss finish helps maintain high screen clarity
